Data Organizers - Organiz*ezy*™

Rotary Desk Unit:

Erected on a round base, these ball bearing operated **Organiz*ezy*™** units serve as innovative presentation aids where continuous and related matter need to be exhibited. They have proven usage at shop floors, production cells, quality control points, TQM & TPM centers, banks, tourist, airlines, travel agencies and information counter, to suggest a few. The standard units come with 40 pivoting pockets with a blocking system that keeps open the required page. The unit offers an ideal solution for central information, which must be shared by multiple users.
