The G-BOX Digital Signage User Interface “command central” for your Digital Signage network.

There are no installable software in your system.
Hence no problems with compatibility,
security issues and firewalls.

The user interface directly sits inside the G-BOX Digital Signage.
In the simple and easy to use User interface of the G-BOX,
you will spend your time building, previewing, uploading, and
maintaining your complete Digital Signage presentation.

At **G-BOX**, we believe that our digital signage is something that almost every business owner and every key person can take advantage of. You could be a doctor who needs a signage solution for your waiting room. Or perhaps you're an auto body shop owner wanting to promote your services in the lobby. Maybe you're the CEO of a large corporation who wants to use digital signage as a way to deliver messages to employees in many different offices. The bottom line is that **G-BOX** has a solution -- an affordable solution -- for you!
