

# L.E.D Multi-Line Text Boards

The FIXOVISION Multi Line Director Display range is ideally suited for indoor locations that deserve a touch of glamour: hotel lobbies, corporate lobbies and showrooms, flagship stores, shopping malls & airports, and many more...

Available in a Powder coated metal enclosure; the Director is designed for high-visibility indoor use. At a glance, the Director clearly provides your visitors, guests or your customers with the messages, the schedules and the information they require.

You can control the messaging via a PC. Update and revise your messages at any time. Easy-to-install and use, the Director is a complete solution for your information needs.

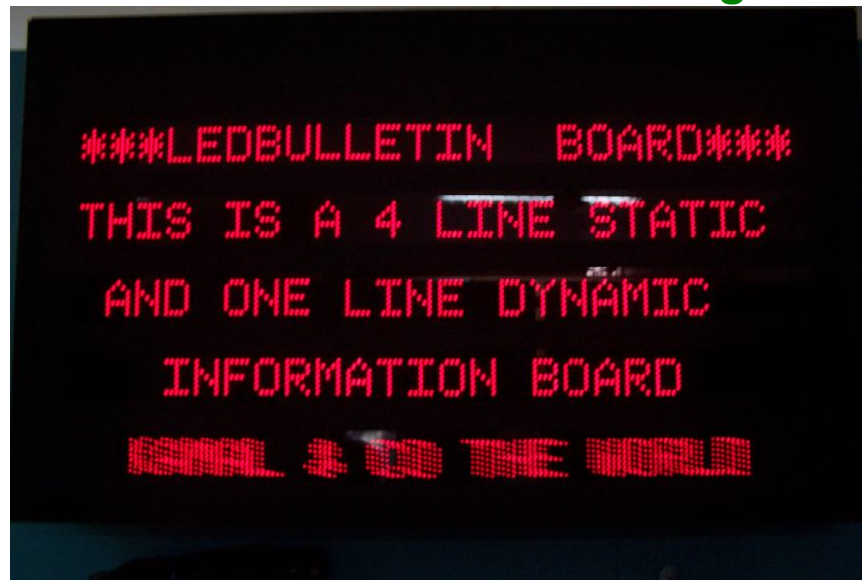

The Director arrives as an easy-to-use, total information solution right out of the box. We included several components, including Director Messaging software, cables and Comport connectors for instant message updating.

# L.E.D Multi-Line Text Boards
